

620 WMB SPECIAL

ROLLER AND BLANKET WASH

DESCRIPTION:

The 620 WMB Special is a highly effective water miscible press wash for cleaning of rollers and blankets. This user friendly, versatile formulation is low in odor and will dry quickly. The 620 WMB Special contains agents to effectively clean ink, paper, and other contaminants from all types of roller and blankets. This product can be mixed with water to help with the removal of paper lint build up on the blankets.

BENEFITS OF RUBBER REJUVENATOR:

- Strong effective cleaner
- Apply Straight or mix with water
- User friendly with low odor formulation
- Great for all types of Sheet-fed and Web Presses
- Dry's quickly and leaves no residue
- Excellent product for everyday use

USE DIRECTIONS:

Use straight or mix up to 50% with water and apply using a lint free rag or cloth on blankets. Apply straight on ink roller train and engage wash up blade, follow with water if needed.

For automatic blanket and roller wash systems, follow instructions from equipment manufacturer.

For use on all sheet-fed and web press blankets and rollers.
